Have you seen the girl I never met  
She looks like you  
Ahah  
She looks like you  
And when I find the girl I never met  
You'll be there too  
You'll be there too

She walks the fields of Waterloo in here bare feet  
I wish you would  
I thought I saw her walk down little butcher street  
I wish you would  
She makes me stagger round just like a marionette  
That's not too bad for the girl I never met

And now she's gone the girl I never met  
And so are you  
Ahah  
And so are you

She walks the fields of Waterloo in here bare feet  
I wish you would  
I thought I saw her walk down little butcher street  
I wish you would  
She makes me stager round just like a marionette  
That's not too bad for the girl I never met

And when I paint the face I can't forget  
I'll dedicate it to you  
This is dedicated to you  
Dedicated to you  
My darling this is dedicated to you
