Certain break is pupping
Broken mile is barking
And the dogs are lost in the hay
Warning elevation, try the simulation
But the nightwave's short in my brain

Used information, burning consilation
From the people for a rise in the truth

I'm overloaded, I'm on exploding
Feel like I'm choking to death
I'm overloaded, my head is exploding
Feel like I'm going insane, insane

Morning lights are flashing
Know that I've been crashing
When I couldn't even contact the ground
Got to reach the tower, driving up about it
While the shakers switch the screw to be found

I'm overloaded, I'm on exploding
Feel like I'm choking to death
I'm overloaded, my head is exploding
Feel like I'm going insane, insane

Overloaded, loaded
Overloaded, loaded
Overloaded, loaded
Overloaded, loaded
