You got that sick sinister smile
And I'll be here for awhile
And you're standing there
Looking scared
And I know you're only 18
And the world is only faking
All the feelings there
And it's not fair

You got that sick sinister smile
And I'll be here for awhile
And you're standing there
Looking scared
And I know you're only 18
And the world is only faking
All the feelings there
And it's not fair

And I know
When life gets bored
I'll be there saying that I'm right
And I know
When life gets rough
When then the tough better get going then
And I know
When life gets bored
I'll be there saying that I'm right
Cause I don't care
What they say

You've got that sick sinister smile
And that's no look for a child
And your teeth are bare
And I am scared
And I know your only 18
But would you please stop faking
All the feelings there
Cause it's not fair

And I know
When life gets bored

I'll be there saying that I'm right
And I know
When life gets rough
When then the tough better get going then
And I know
When life gets bored
I'll be there saying that I'm right
Cause I don't care
What they say

You got that sick sinister smile
And I'll be here for awhile
And you're standing there
Looking scared
And I know you're only 18
And the world is only faking
All the feelings there
And it's not fair
You've got that sick sinister smile
And that's no look for a child
And you're teeth are bare
And I am scared
And I know your only 18
But would you please stop faking
All the feelings there
CAUSE IT'S NOT FAIR
You got that sick sinister smile
And I'll be here for awhile
And you're standing there
Looking scared
And I know you're only 18
And the world is only faking
All the feelings there
And it's not fair

And I know
