Three years have gone so fast
I always thought that we would last (you suck)
I was so blinded but now I can see
Me without you is the way it's meant to be

Never meant to be

Love is so overrated
Why's it have to be so complicated
I think it's time for me to leave
This is the last time you'll ever see me

There's no other girlfriend
This is just my goodbye to you (you bitch)
It'll break your heart when I say this to you
But the end of me and you, has been so long overdue

Love is so overrated
Why's it have to be so complicated
I think it's time for me to leave
This is the last time you'll ever see me

Love is so overrated
Why's it have to be so complicated
I think it's time for me to leave
This is the last time you'll ever see me
Love is so damn frustrating
Why's it have to get so fucking jaded
I think there's nothing left to see
Me and you were never meant to...

Never meant to be
