I got a heck of trouble
Looks like it, double trouble
Have I the right to say
The chance like this don't come every day

Temperature keeps on rising
Promises tantalizing
'Cause this time I'm triple sure
There's no walking to that door

[Chorus:]
'Cause all I want is you, only you
I waited all my nights for you
In a sleepless blue
For a night with you
All I want is you, only you
I waited all my nights for you
In a sleepless blue
'Cause all I want is you-----
You-----
You-----

No more commiseration
Let go your hesitation
'Cause you are here right now
That couldn't stop from take your bow
Keeping it slow and easy
Until your arms said "please me"
Oh, when I gotta have to ask of you
Or should I come and make love to you

[Chorus]

All I want, all I want is you
All I want, all I want is you
All I want, all I want is you-----

[Chorus]
