A nice heart and a white suit and a baby blue sedan
And I am doing the best that I can All the eunuchs, they
were standing in rows singing, "Please stud us out just
as fast as you possibly can." Sad song, last dance and
no one knows who the band was And Henry, you
danced like a wooden Indian Except this one mattered
and I felt it had a spirit And I shot the story because I
didn't hear it that way And it's hard to be a human
being And it's harder as anything else And I'm
lonesome when you're around And I'm never lonesome
when I'm by myself And I miss you when you're around
