Secrets
Little hides
The other things
The b-sides
The alter facts
The unknown
The inner self's
The unshowned

And so it's written on these lines
Seven deadly sins
Ancient flames on human shrine
Evil creed

The sickly Pride the Gluttony
The filthy Lust and all the Envy
The selfish Sloth the blinded Wrath
The Greedy lies that wrap our path

And so it's written on our lives
Human policy
What we show and what we are
Ambiguity
Secrets seal all these Faces calls
Little burning weeds
So you and I we are black and white
Choosing what to be
Besides...

The little girls the Gluttony
The filthy Lust the obscenity
The Greedy lies the blinded Wrath
The sickly Pride The selfish Sloth
The Envy the control
The vanity the leading role
Secrets seal all these Faces calls
Little burning weeds
So you and I we are black and white
Choosing what to be
Besides...
