I see the shame in you and makes me wanna smile
The acts you disapproved now settle down your trial

The moral of refuse
The guilty of excuse
Spitting in cite
Sieving in life
...and makes me wanna smile...
...and makes me wanna smile...

You failed just like me once so criticized
Now feel how hard it is, to heal and pacify

The moral of refuse
The guilty of excuse
Spitting in cite
Sieving in life
...and makes me wanna smile...
...and makes me wanna smile...
