Day after day this weird sensation  
Come and make me think in a different way  
It's like thinking without thinking  
Just letting thoughts flow away

Old passions and mistakes  
Future visions, thoughts that awake  
Past and future in a fusion of time  
All this confusion invading my mind

Trapped in my thoughts

Thoughts, thoughts, trapped in my thoughts  
Trapped in my mind  
Thoughts, thoughts, trapped in my thoughts  
Where there's no time  
Thoughts, thoughts, trapped in my thoughts  
Trapped in my mind  
Thoughts, thoughts, trapped in my thoughts  
Where there's no time

Fears that I try to fight  
Dreams that come to light  
Seems like a self therapy  
Keeping me away from lunacy

Thoughts, thoughts, trapped in my thoughts  
Trapped in my mind  
Thoughts, thoughts, trapped in my thoughts  
Where there's no time  
Thoughts, thoughts, trapped in my thoughts  
Trapped in my mind  
Thoughts, thoughts, trapped in my thoughts  
Where there's no time... time

Misteries of the unconscious  
Builders of a personality  
Reflections of a life  
What I hear and what I see
