

## Good-cool "Life Together"

Visit "[Life Together](#)" on MotoLyrics.com

Lift hands high, with heads held up  
Let's lift hands high, with heads held up  
Let's lift hands high, with heads held up  
Let's lift hands high, with heads held up  
to the sky.

People all around we gather together.  
We can learn to live and love and stand for something  
now.  
Nothing can hold the righteous down forever, oh no.  
Come on now let's get this world together.

Loving one another means no more war live in  
peace and the fighting everywhere will cease.  
Realizing living all together under one sun, this is  
how it should be we can live in peace.

Hand in hand we hold them high, unity we're one  
people.  
The the land prosperity. We can live together.

Hand in hand we hold them high, unity we're one  
people.  
The the land prosperity. We can live together.

In love we will live together and peace will reign  
forever.  
In love we will live together and peace will reign  
forever.
