"Never Let You Down"

Depend on me, baby
The way that I depend on you
Depend on me, honey
I promise I will always be true

I'll be your mother and your father
and your sister and your lover
I'm everything that you need
Give me your heart and your soul
Don't be hot, don't be cold
I'll look for you, you wait and see

Depend on me, baby
I will never let you down
Depend on me, sugar
I will always be around

Depend on me
Baby
Depend on me
Yea, yeah
Depend on me
