Plasticine transfusion
Genetic leak
Mass confusion
Bits of brain in a strainer
Rubber fetus in a container

(Doctor Steel, Doctor Steel)

Singularity is nearing
Reality engineering

I have become the man with a plan!
With an army of toys and a mechanical band!
Ruling the world making everything real!

I'm Doctor Steel, Doctor Steel!

With dials and switches and knobs and gogs churning away...
I manufacture tomorrow a Utopian Playland

Build a new army and rise
And when the saucers arrive they'll get a big toy surprise!

I'm Dr. Phineas Waldorf Steel and with my purpose revealed
I feel like I could take over the world
I can't believe I never saw it before
My destiny calls me and I open the door

Now that I've lost my mind
Leaving myself behind me
Throughout space and time, I find
The alien illuminati

I have become
An abstract ideal
I have begun
To question what's real

I have become
The one to reveal
I have become
The face on Enlil
And I have become
And they shall all kneel
And I have become
Before the great Doctor Steel!

(Doctor Steel, Doctor Steel)

I have become the man with a plan!
(Doctor Steel, Doctor Steel)
With an army of toys and a mechanical band!
(Doctor Steel, Doctor Steel)
Ruling the world making everything real!

I'm Doctor Steel, Doctor Steel!
