Von Neumann probe programmed to multiply
Clickin' and tickin' with the equation of phi
Striving and climbing and bribing and lying
For science, fudge the numbers so that everything fits.

Shakin and bakin and takin' and takin' and takin'
Takin' everything, everything, gimme gimme everything
Oh no I see the end of the road
Will we explode before the ice age hits?

Make me (one)
Copy and paste. Repeat
Make me (one)
Copy and paste. Repeat
Make me (two)
Copy and paste.
Make me make me Fibonacci

Ooh and our gods and heroes
Are only ones and zeroes
Join hands and sing along
Everything we know is wrong

I can't take it, I really gotta know
I got the fever for the flavor of my frontal lobe
I need the info the data and a computer calculator
Right click. I gotta download.

Make me (one)
Copy and paste. Repeat
Make me (one)
Copy and paste. Repeat
Make me (two)
Copy and paste.
Make me, make me Fibonacci

Make me (three)
Copy and paste. Repeat
Make me (five)
Copy and paste. Repeat
Make me (eight)
Copy and paste.
Make me, make me Fibonacci

All wrapped up with a ribbon and a bow
I'll shut up cause I don't want to know
Living with a band-aid on my brain
Everybody play the game

Make me (one)
Copy and paste. Repeat
Make me (one)
Copy and paste. Repeat
Make me (two)
Copy and paste.
Make me, make me Fibonacci

Make me (three)
Copy and paste. Repeat
Make me (five)
Copy and paste. Repeat
Make me (eight)
Copy and paste.
Make me, make me Fibonacci
