I held you tight and it felt like it
Took a breath made me weak like it
Kissed your lips and I know that it tasted just like it felt
I've never seen all this happen to me
But it feels like love
Makes me weak like love
And it tastes just like it's got to be love
Oh it's in the air I feel it everywhere
I'm so happy 'cause I know it's got to be love
No two ways about it, it's got to be love
I look at you and it looks like it
When you talk, oh it sounds like it
Deep inside, all my thoughts and my heart say it's so
Still I've got to be sure 'cause I've been fooled before
But it looks like love
And it sounds like love
And my heart tells me it's got to be love
Oh it's in the air I feel it everywhere
I'm so happy 'cause I know it's got to be love
No two ways about it, it's got to be love...
