(Boyce/Hart)

I wonder just how long it would be

Me without you, you without me

We had a fight last nioght about something or other

But it can't be too important if wqe love one another

True love always seems to take a little bit longer

But every time we break up, we make up a little bit

stronger

I wonder just how long it would be

Me without you, you without me

Let me tell you know

I wonder just how long it would be

Me without you, you without me qo

Me without you, you without me

Me without you, you without me

Me without you, you without me'
