Don't resist me  
I despise all the critical behaviour  
All I grudge is your pain  
So suffer...

I'll kill your wishes and your future  
Believe  
Sending all your thoughts...  
Total...

Now you're worthless  
You're useless

Kill my thoughts  
And feel the innocence  
It runs through your blood  
Kill my thoughts  
Protecting your own life  
The only one you know

I'm the master  
Of eternal collapse and insanity  
...  
...  
You're bound to be the victim till the  
End at this point  
There's no use in begging  
I'm superior to all

Now you're worthless  
You're useless

Kill my thoughts  
And feel the innocence  
It runs through your blood  
Kill my thoughts  
Protecting your own life  
The only one you know
