His arm reaches to hit the sun  
In a crowd with no one  
But it's painted on the wall  
Next to all the naked bodies  
trailed by mist  
Eating the forsaken puzzle  
No sign of remorse just a vision  
to be broken

He's pleading eyes they haunt me  
Trapped inside the faceless  
My creation turns to ruins  
Left behind as pieces  
Watch me fall

Again I walk the lonely path  
Within the crowds circle  
The poisoned angel disappear  
Promise kept still I can feel  
the spineless fools surround me  
And they feed my anger  
Drawing flowers with my blood  
Like a vision to be broken

He's pleading eyes they haunt me  
Trapped inside the faceless  
My creation turns to ruins  
Left behind as pieces  
Watch me fall

Watch me fall
