Bloody thursday was July 5th  
The pigs killed 3 workers harry bridges grabbed the  
mic  
The city shut down July 5th the workers outrage it was a  
general strike  
The media clamed that the commies were taking over  
And some believed it was true  
3 uncompromising strikes was paved the way  
Minn Sf and Toledo

Over and over again the doors are locked  
And the windows are broken

Eddie worked for general motors and he swore  
That he'd never lose his job again  
A union man who owned his own home  
In beautiful flint michigan

Eddie lost his job and eddie lost his wife  
So eddie lost his self esteme  
The last time i saw eddie  
He was living in the trailer park again

Over and over again the doors are locked  
And the windows are broken

I believe eddie for gave too much too soon  
I got a letter from eddie and it was bad news

Over and over again the doors are locked  
And the windows are broken
