I saw a man get the beat down
Took his money and his wallet left him dead on the
ground
I saw them gather celebrate the crime
Teachin us the laughter another lesson of mankind
I raise my hand I got another question
If I start a riot, will I get protection
Cause i'm a kid whos got a lotta problems
If i throw a brick maybe the brick will go and solve them
Oh, yeah, i wanna riot
Oh, yeah, i wanna riot
I'm boilin up the citys on heat
Red alert tention you know its on the street
Code blue the city of the dead
Sirens in the night with the lights bloody red
See how we do this see how we ride
Throw a brick, light the fuse, dodge a bullet, duck
inside
A statistic hammered on my brain
Branded with another nother pawn in the game
Oh, yeah i wanna riot
Oh, yeah i wanna riot
In front of me the misery
Cryin in line got a burning to be
My face is burning, burning so quick
Burning like a candle at the end of its wick
Well i turn the dial i turn the channel
I turn it to a monster fighting the eternal battle
I need some help and there is no doubt
If i'm gonna go down i'm gonna take somebody out
Oh, yeah, i wanna riot
