"It's Quite Alright"

Visit "[It's Quite Alright](#)" on MotoLyrics.com

I can tell you how it'll go down but only you can tell me
how it will end
All systems can stop right here and all we are is
pretend
So many things can be a mystery but what we are
seeking is freedom
We realize Mr. Reality I'm gonna be there to greet him

It's alright
It's quite alright with me

When ignorance manifests like that it's hard to stop
Under developed don't lose your balance and then
take a divine drop
If you find my name in regards to danger I urge you all
to take heed
Causations, the end of the world will set me free

So that's alright
It's quite alright with me
Yeah, with me!
