And I heard the rumor that we're callin' it off
And we won't last too long
But I get the feelin' when I'm looking at you
Baby, they couldn't be more wrong

They've been sayin' it's a shaky romance
And they don't give the two of us too much of a chance

But if the Grand Canyon is just some ditch
Dorothy and Toto fought just some witch
And if babe Ruth was just some guy with a glove
Then ooh baby this is just some love
Ooh baby this is just some love

And I speak my mind baby, that's the truth
But you've got a temper too
So when they see us start to fuss and fight
Well I guess they think we're through

But if they're judgin' us by what they see
Then they don't have a clue about you and me

'Cause if the rocky mountains are just some hills
Niagara falls is just some water spills
And if Humphrey Bogart was just some tough
Then ooh baby this is just some love
Ooh baby this is just some love, yeah

If the Grand Canyon is just some ditch
Dorothy and Toto fought just some witch
And if babe Ruth was just some guy with a glove
Then ooh baby this is just some love

Ooh baby this is just some love
Ooh baby this is just some love
Ooh baby this is just some love
