Jesus and his ? wage a final war  
Religious self-prestigious keep the quest for the holy  
grail  
The eye atop the pyramid is open and awake  
The Pagans hold the rituals and the fire won't begin to  
say:

Division is the new world order.  
Division is the new world order.  
Division is the new world order.  
Come along and tell your sister and your brother.

The force of war, dynamite blast  
Rides on the weak and the poor  
Don't want to see my brother in pain when the man  
fights big man's wars  
Don't know nothing 'bout no red, white and blue

Little men, big ?  
Too many win, nobody lose  
? choose

Division is the new world order.  
Division is the new world order.  
Division is the new world order.  
Come along and tell your sister and your brother.

The conscience of the public can not be put to sleep  
The conglomerate of the nations has no bounds in  
which they seek  
Was it the Mob tellin' the CIA to install/restore this state  
of fear  
How many of us wish we were up to Kennedy's ear?  
Say:

Division is the new world order.  
Division is the new world order.  
Division is the new world order.  
Come along and tell your sister and your brother.

See them try to rule the world

We don't know why  
Why they want to rule the world  
Cuya ?

Only white men and black men's..? the white power ?  
The guns of mass destruction, them fighting about  
Buying the world is only so much money  
Here they come ? in the knees

World wide hunger ? one fear  
Well gangster treaties who keep us in fear  
How much more cannot people deal?  
Need no more division

Need no more pride and I, I will keep on fighting to  
keep what's mine  
We the people speaking our mind  
And once more, would you say it for me now?

Dynamite blast of the force of war  
Government rides on the weak and poor  
Don't want to see my brother in pain no more  
When the little man fights all the big man's war

? victimize  
Mental slavery with the clever disguise  
Our prides on our people must rise  
Decide your fate

Life won't wait!!!  
Life won't wait!!!  
Oh, life won't wait!!!

Division is the new world order.  
Division is the new world order.  
Division is the new world order.  
Come along and tell your sister and your brother.

Division is the new world order.  
Division is the new world order.  
Division is the new world order.  
Come along and tell your sister and your brother.
