Sign a petition under working condition
Union is in bed with the coal operators (call of berettas)
Carry are freedom looking for something
To get you family better life for every single day

Some things keep me going
Well I got no one to blame
Five o'clock is comin'
Do you feel the same?
When a lonely whistle
Calls out your name?

What a man likes to see
When they come after mine
No prettiness for the mighty black lung
Rank and file workers, rank and file minds
Take off the gloves and sock it to 'em
Some things keep me going
Well I got no one to blame
Five o'clock is comin'
Do you feel the same?
When a lonely whistle
Calls out your name?

Hey young believer/unbeliever (Hey)
Black lung fever (Hey)
Transmit receiver (Hey)
Backed up deceiver (Hey)
Well I don't like it either (Hey)
We're all presidents for the (Hey)
Black lung fever (Hey)

Some things keep me going
Well I got no one to blame
Five o'clock is comin'
Do you feel the same?
When a lonely whistle
Calls out your name?
