"Reconciliation"

Spread out like a million locusts covering the sun
Protagonists and infidels gonna speak out on the run
Deep rooted back and fourth
Failed from both sides
Triggered a sudden Excitement into the battle night
Reconciliation in what they already knew
Humanities lost when the power's vested in a few

Shadow of island cloud the symbol of change
Nelson spent 19 years on robin island estranged
I hear a voice in Cape Town, on Bohemian long St.
Listen closely, yeah listen closely
Reconciliation in what they already knew
Humanities lost when the power's vested in a few
