

Rancid "The Highway"

Visit "[The Highway](#)" on MotoLyrics.com

(Chorus)

Night clubs and one night stands, play a show then i'm
off again

This is my life living on the highway.

Its all i've ever done, all i've ever known

just wanna play one more show, make some music with
my friends!

I am working class culture, seen the bleak side of the
American experience

scatter in the streets and show me what you got

this is no set of ideas, this is flesh and blood.

(Chorus)

Night clubs and one night stands, play a show then i'm
off again

This is my life living on the highway.

Its all i've ever done, all i've ever known

just wanna play one more show, make some music with
my friends!

Opinions are hard to put in prison

i tell the truth that won't be told

uprising and rebellion, social shange with flesh and
blood.

(Chorus)

Night clubs and one night stands play a show then i'm
off again

This is my life living on the highway.

Its all i've ever done, all i've ever known

just wanna play one more show, make some music with
my friends!

Living on the highway!
