Pick me back up just to throw me back down
apooxies too late when you're up against the wall
compassion heals while duplicity kills
You say that I'm different, you say that I'm different,
the only thing different is the way I feel about you
Na na na na na...
You moved up the ladder at a very rapid speed
we moved methodically and calmly
when you got to the top you see enemies
You say that I'm different, you say that I'm different,
the only thing different is
the way I feel about you
Na na na na na...
If I knew back then what I know it would all turn out
like this
I'd sit back and I'd watch you squirm
cause you say I'm different, you say I'm different man,
the only thing different is
the way I feel about you
Na na na na na...
