Neighbors, no one loves you like he loves you,  
And no one cares like he cares.  
Neighbors, let us join today in the holy love of God and  
money,  
Because neighbors, no one loves you like He loves you.  
And what better way to show your love than to dig deep  
into your pockets.  
Dig real deep, until it hurts. Alleviate your guilt,  
Free yourself once again, because he gave to you,  
brothers and sisters.  
Please give a 10, 25, or 50 dollar tax-deductible  
donation,  
And I assure you your modest pledge will be used to  
censor TV and radio,  
Ban questionable books, and contribute to many other  
Godly services.  
No longer will young Christian Americans hedonistically  
indulge  
In masochistic submission to rhythmic music, for with  
your monetary support,  
There is no end to what we can achieve in this country.  
The voice of God is government. The voice of God is  
government.  
The voice of God is government. In God we trust,  
sinners repent!  
(1, 2, 3, 4)  
Can't you see what we believe in, all our thoughts, all  
our reasons,  
Pursuit of life and liberty and happiness we cannot  
see?  
Speak of truth with a mighty voice, but politics are your  
real choice.  
Hire men to change the law, protect and serve with one  
small flaw.  
Voice of God is government. The voice of God is  
government.  
Voice of God is government. In God we trust, sinners  
repent!  
If we shun God and Jesus Christ, religious love is  
sacrifice.  
Love for God is shown in cash, the love they send is  
mailbox trash.

With every pamphlet we receive, more money asked  
for Godly needs.

Build a million dollar church, with money spent on  
God's research.

Voice of God is government. The voice of God is  
government.

Voice of God is government. In God we trust, sinners  
repent!

On late night TV, God can heal, a certain force you  
cannot feel.

Love for money in God's name, religion's now a TV  
game!

Build a million dollar church, with money spent on  
God's research.

Build a million dollar church, with money spent on  
God's research.

Voice of God is government. The voice of God is  
government.

Voice of God is government. In God we trust, sinners  
repent!

Yeah!

Voice of God is government. The voice of God is  
government.

Voice of God is government. In God we trust, sinners  
repent!
