A cat lies awake when it sleeps was she conscious of  
her own miseries will the  
amount of her pain win her to enlightenment and set  
conscience free do you  
really wanna know what's happenin' do you really  
wanna know what's goin' on  
hey girl you better please take a look around you better  
explore your heart  
and find out for yourself Jenny Demilo you don't care  
nothin' about me I never  
really had a reason never had a use for one before but  
now I know that there's  
now a prize but for the wis e and the unwise do you  
really wanna know what's  
happenin' do you really wann know what's goin' on hey  
girl you better please  
take a look around you better explore your heart and  
find out for yourself
