Hey!

Hey!

Hey!

I told you I'd pick you up at 3:30 outside the mall
I hope you haven't joined a gang or smoking drugs with what's his name
You won't answer when I call, your brother's late for basketball
Don't ever do that again or say goodbye to all your friends

We'll talk when we get home
We'll talk when we get home
We'll talk when we get home
We'll talk when we get home

Found you in a parking lot, drinking beer and smoking pot
Don't you try and run away and by the way, your boyfriend's gay.
Why can't you get it through your skull, it's just like talking to a wall
Goes in one ear and out the other, just wait until I tell your mother

We'll talk when we get home
We'll talk when we get home
We'll talk when we get home
We'll talk when we get home

We'll talk when we get home
We'll talk when we get home
We'll talk when we get home
We'll talk when we get home
