"Demon Brother"

Like coming on the scene of a train wreck
Are you the devil or my demon brother?
It'll take a long time to wash your hands of this
Too many drinks and too much John Wayne

Like coming on the scene of a train wreck
Are you the devil or my demon brother?
Well you got him by the wrist
Well you got him by the wrist again
Well you got him by the wrist
Again

I know she had some bad breaks
God know she's pretty messed up
This is definitely a bad sign
This is definitely a bad sign
The devil comes and the devil goes

Like coming on the scene of a train wreck
Are you the devil or my demon brother?
We better get out of town
She better get out of this town
