If you're not gonna dance  
if you're not gonna dance  
If you're not gonna dance  
Get your ass off the floor  
Get your ass off the floor  
Get your ass off the floor floor floor floor floor  
People like you are what the balcony's made for  
People like you are what the balcony's made for  
You better learn to shake that ass boy  
You better learn to shake that ass  
While it's still young,  
young,  
young,  
young,  
If you're not gonna dance  
if you're not gonna dance  
If you're not gonna dance  
Get your ass off the floor  
Get your ass off the floor  
Get your ass off the floor floor floor floor floor  
People like you are what the balcony's made for  
People like you are what the balcony's made for  
If you're not gonna dance  
if you're not gonna dance  
If you're not gonna dance  
What the fuck did you come for  
What the fuck did you come for  
What the fuck did you come for  
What the fuck did you come for  
If you're not gonna dance  
if you're not gonna dance  
If you're not gonna dance  
Get your ass off the floor  
Get your ass off the floor  
Get your ass off the floor floor floor floor floor  
You better learn to shake that ass boy  
You better learn to shake that ass  
While it's still young
