I got my guitar when I was 10 years old
Found a love in rock an' roll
Now I'm on the verge of a nervous breakdown
I'm goin' give my body and soul

It's so crazy
But you know that I like it
I've found a cure for my body and soul
I've got me an overdose of rock and roll

I jammed everyday
I jammed everynight
I practiced till I knew all the licks
Now I'm on the verge of a nervous breakdown
I don't know the meaning of quit

It's so crazy
Yes you know, but I like it
It crushes my head, my brain is on the border
But this is what the doctor ordered
Yes, it is

I jammed everyday
I jammed everynight
I practiced till I knew all the licks
Now I'm on the verge of a nervous breakdown
I don't know the meaning of quit

It's so crazy
But I like it
It crushes my head, my brain is on the border
But this is what the doctor ordered

Just what the doctor ordered
Just what the doctor ordered
