Hey sailor, where you going  
Are you ever going to teach me when the weather gets  
good?, no call  
you never called me, you never called to say goodbye  
To say goodbye  
Saw you around town  
????????????????????????????????  
Hey sailor, where you going  
Are you ever going to teach me when the weather gets  
good?  
And i know i can find you, at the corner store  
Drinking a wine, drinking a wine  
Can i buy you your next bottle, your next bottle of wine  
And i know, and i know, and i know, you could never be  
mine  
You could never be mine  
You like to rock and roll, you love to rock and roll  
Hey sailor, where you going,  
Hey sailor where you going  
How come you never called me  
Never called to say goodbye, to say goodbye  
Can i buy you your next bottle  
Can i buy your next bottle of wine  
Your next bottle of wine  
And i know you could never be mine  
And i know you could never be mine
