We made a deal in the car
You stay angry. I'll feel nothing at all
And you gave me your heart
And i buried my heart.
I'll never trust myself
I'll never trust myself again
I got one foot in the van.
And i don't expect you
To wear a flower in your hair
I got my bags in the van
And i don't expect you
To wear a flower in your hair
We made a deal in the car
You stay angry. I'll feel nothing at all
And you gave me your heart
And i buried
I buried my heart
I drank the wine
And i threw away the rose
I'm leaving for good
My bags are in the van
And i don't expect
A kiss goodbye
A kiss goodbye
