

The Murder City Devils

"In This Town"

Visit "[In This Town](#)" on MotoLyrics.com

I've known you
Known you for a long time
And i've seen you fade
And i've seen you shine
And you're such
Such a good example
Of falling down at all the weddings and holidays
(chorus)
Every face in this town reminds me of something i'd
rather forget
Every face in this town reminds me of falling down
Every face in this town reminds me of something i'd
rather forget
Every face in this town reminds me of falling down
(verse)
And you're such
Such a good example
'Cause i know you're a lot like me
(chorus)
Every face in this town reminds me of something i'd
rather forget
Every face in this town reminds me of falling down
Every face in this town reminds me of something i'd
rather forget
Every face in this town reminds me of falling down
(bridge)
And you built a ship
Built it in a bottle
And then we watched it roll away
Watched it roll away
Watch it roll away
