I heard or read
The only love is lost love
If it's true when
People like me and you
We get our share of love
We get our lovin;
We get it in the morning
We get our love when the sun comes up
People like me and you
We get our share of love
And no one wants to be friends with
Someone else's girl
You're someone else's now
You're someone else's baby now
I woke up in someone else's arms
But i was dreaming, i was dreaming of you
I woke up in someone else's bed
But i was dreaming, i was dreaming of you
I was dreaming of you
I heard or read
The only love is lost love
And if it's true
Then me and you
We get our share
We get our share of love people like me and you
We get our share of love
And i'm afraid
I'm afraid it might be true
And i hope to god
I hope that it's not true
