I haven't known you now
As long as I knew you
This wasn't what I had in mind
I thought about the future of me and you
And together and never
So far apart
So far apart
Well I just couldn't relate any more
And I [???)
I'm just being a friend
I'm just being a friend
My memory of you, like a diamond
In the top of my hat
In the top of my hat
But who are you to criticize
I haven't known you now
As long as I knew you
This wasn't what I had in mind
I thought about the future of me and you
But I love you
I hope you're alright
I miss you but I know
I know you're alright
My memory of you
Like a diamond in the top of my hat
My memory of you
Like a diamond in the top of my hat
And I sipped
And I sipped
And I sipped
And I sipped
And I sipped
And I sipped
And I sipped
But who are you to criticize
