Anybody seen my baby girl
anybody knows her name oh no
I've seen your face a 1000 times
(A 1000 times I've seen ur face)
I know how beautiful it shines
I've kissed ur lips and hold ur hand
But this was only in my head
ref:

Anybody seen my baby girl
Anybody knows her name oh no
Somewhere in the world I know
She is waiting for me to show
Anybody knows my baby girl

So beautiful allmost unreal
(So beautiful allmost unreal)
It's the way you make me feel
This one way road that leads to you
It's says my dream becoming true
ref:

Anybody seen my baby girl
Anybody knows her name oh no
Somewhere in the world I know
She is waiting for me to show
Anybody knows my baby girl
