This very morning at six a clock sharp.  
I stepped out in the light straight from the dark.  
I went from the club to the buss and my bed.  
I had some sunglasses on and took a pill for my head.

I was low I was worn out and used my light had burned  
out to a glow.  
I was low I don't remember that much but my friends,  
well they told me so.

I woke up around a quarter to three.  
Another parking lot in another city.  
Already been here a time or two.  
Don't need no map or some guide to know what to do.

I know which street to walk which stores to see to find  
the necessary.  
I know in which restaurants I need to be to find some  
good food for me.

I'm still vegetarian, anti-American I'm still socialist and  
I still  
raise my fist.  
I'm still anarchist; I'm still atheist I'm still pissed,  
because some  
things they enlist.  
I raise my fist.

After sound-check I felt better again.  
I went to the backstage where I met a friend.  
He said he had some plans for me and the band.  
After the show we had a party to attend.

You know that I always said it's better to do something  
than just sit  
around waiting to die.

I'm still vegetarian, anti-American I'm still socialist and  
I still  
raise my fist.  
I'm still anarchist; I'm still atheist I'm still pissed,  
because some

things they enlist.
