I spend a lot of time complaining about things i find agatating, selfconfident im braging that ive found a better way. And if you know me you probably know that there isn't any issue that i haven't whined about. You could say that i am asnorty pacifical rascal filled with doubts. Some tell music shouldn't deal with problems, politics or facts or something with intellect, But no one is perfect! In our case only 10% entertainment the rest is just somethig we have to do, hopefully were getting through, to you!! But if you are smart you ignore every single word i say and find your own way to live don't let anybody tell you what to do. I spend a lot of time frustrated over all this evil generated in this lutheran selfish politician world it's time they get what they deserve. Our way of think our way to act characterizes and impressed by their lies and by their lack of compassion, respect and intellect. But if you are smart you ignore every single word i say and find your own way to live don't let anybody tell you what to do. We done it their way forever, it's time for a change, find your own way. We done it their way forever it's time for a change find your own way. Find your own way to live, reject the restrictable dismiss the predictable and find your own way.
