Almost everything you stand for are the same things that i hate. Your selfish way of expressing yourself as something that you aint. I just cant belive how selfcentered and fucking stupid you must be, if you cant understand and except a different sexual-nationality. A whole country with minds that would let history repeat itself again "-to keep our freedom preserved and our opinions heard it only takes a few good men" It will take efford, strength and curage if we wanna stop these swines. If you contribute with your part you can surely count with mine. Operation headfirst-its the beginning of our strife. If you contribute with your part you can surely count with mine. Operation headfirst- it begins right here and it end where unjustice oprression and ignorance will disappear. Almost everything you stand for are the same things that i hate. Your opinions makes me nauseating and its nothing that i ate. Almost everything you stand for mrs fascist mr blight, Is an violation and overstep of animal and human rights.
