I exposed your lies  
Baby  
The underneath now beats your cries  
Now it's time for changing  
And counting everything to forget your love

My plug in baby  
Crucifies my enemies  
When I'm tired of giving  
My plug in baby  
In unbroken virtual realities  
Just tired of living

Don't confuse  
Baby you can't release  
Your game changed me  
And you're pasting envying  
To forget your love

My plug in baby  
Crucifies my enemies  
When I'm tired of giving  
My plug in baby  
In unbroken virtual realities  
Just tired of living

But I'm still loving by the time  
But I feel stronger
