V1

Sweet heart, everything will be ok
I am here now
They try to tell me,
Don't hear what they say
Don't let this be the day

V2

Wait, I have so much more to say
Can you hear me,
Am I getting through to you,
Your fading away
I'm down on my knee's

Chorus

This is not goodbye
Your leaving me behind
I need you here with me
This is not your time
I will not let you go
Without a fight
Sweet agony

Verse3

If only fate could look me in the eye
Oh just one time
There's no easy answer
No simple reason why
You're the love of my life
I cannot let you go

Chorus
