Always remember my friend
the world will changes again
and you may have to come back
through everywhere you have been

when your life was low,
you had nowhere to go.
people turned there backs on you
and everybody said that you through.
i took you in
i made you strong again
put you back together
out of all the dreams
you left along the way,
you left me shining,
now your doing well
from story's i hear tell.
you own the world again
everyones your friend,
although i never hear from you
still its nice to know,
you used to love me so
WHEN YOUR LIFE WAS LOW
always remember my friend
the world will change again,
and you may have to come back
through everywhere you have been,
i took you in i made you strong again,
put you back together out of all the dreams
you left along the way,
you left me shining.
now your doing well
from story's i hear tell,
you own the world again,
everyones your friend,
although i never hear from you,
still its nice to know,
you used to love me so
WHEN YOUR LIFE WAS LOW
