My heart beats wild and deep
Every thought in my mind has your name on it
It's hard to breath and I can't speak
Think of your love and just how much I want it

And when I'm touchin' you I feel a certain change
When I'm kissin' you I taste the sun and rain
When I look at you I hear the angels sing
When I'm holdin' you I'm holdin' everythin'

Everything is mine to give
Everything I can do I'll do to prove it
For as long as I may live
My love will be there for you to use it

And when I'm touchin' you I feel a certain change
When I'm kissin' you I taste the sun and rain
When I look at you I hear the angels sing
When I'm holdin' you I'm holdin' everythin'

My heart beats wild and deep
Every thought in my mind has your name on it
It's hard to breath and I can't speak
Think of your love and just how bad I want it

And when you're touchin' me I feel a certain change
When you're kissin' me I taste the sun and rain
When you look at me I hear the angels sing
When you're holdin' me I'm holdin' everythin'
Holdin' everythin', I'm holdin' everythin', everythin'
