Well, I was thinking about you
Wondering what we should do for the night
I was making me a list
Of all those places I want to kiss on you

So what are you thinking, Miss Mystery?
I'll let your actions convince me
And when I hold you in my arms
There's no more questions we're one on one

Well, I want to be checking you out
I'll have flowers waiting for you with the wine
And I was hoping what I could do
With those clothes you had on you all night

So what are you thinking, Miss Mystery?
I'll let your actions convince me
And when I hold you in my arms
There's no more questions, we're one on one

Look at me and don't say a word
My heart is hearing, I'll kiss where you hurt
And when I hold you in my arms
There's no more questions, we're one on, one on one
One on one
