Visit "[Again](#)" on MotoLyrics.com

On the floor now, on the floor now
It's started again, yeah well it's started again
Close the door now, close the door now
Won't you let me in? Why won't you let me in?

'Cause it's been six long days and I'm on my way
Will I ever see the end?
A heavy load down and a dead end road
And I can't sleep again, well I can't sleep again

Hold the phone now, hold the phone now
Well you're calling again, why won't you call again?
Say my name little girl, say my name little girl
Even though it's a sin, yeah well you know it's a sin

'Cause it's been six long days and I'm on my way
Will I ever see the end?
And a heavy load down a dead end road
And I can't sleep again, I can't sleep again

I've gotta roll on, gotta roll on
Gotta leave you alone
Yeah, baby not for long

'Cause it's been six long days and I'm on my way
Will I ever see the end?
And a heavy load down a dead end road
And I can't sleep again, I can't sleep again
I can't sleep again
