Talking on the phone to someone that I don't know.
To figure out if this is really worth a go.
Time to do something I haven't done,
In a while.

I just thought I'd tell you goodnight and that I love you.
Take a chance and do just what we wouldn't do.
Do you question if this is real?
There's no question about the way I feel.
(Repeat)

Hanging out with someone that I now know.
I'm glad that I went and took the chance.
I just want to stay here,
And be with your smile.

I just thought I'd tell you goodnight and that I love you.
Take a chance and do just what we wouldn't do.
Do you question if this is real?
There's no question about the way I feel.
(Repeat)

I just thought I'd tell you goodnight and that I love you.
Take a chance and do just what we wouldn't do.
Do you question if this is real?
There's no question about the way I feel.
(Repeat)
