With you I can run forever  
With you I can run forever  
'Cause you gotta be my inspiration  
Side by side through every nation

We ride the world just like a roller coaster  
As we take each road and we take each turn you bowl  
me over  
'Cause you gotta be my inspiration  
Together we can run forever

Through all the seasons we'll keep goin' on  
Through the wind and rain and the morning dew  
It doesn't matter baby where we are  
With you I can run forever  
With you I can run forever

We see the bright lights of the city  
The colours change they re-arrange themselves  
In different patterns  
But it's too crowded in the city  
And so we leave it all behind  
Go on to other places

With you I can run forever  
With you I can run forever  
There's nothing we can't win together  
With you I can run forever  
With you I can run forever  
With you I can run forever
