Girl, the more that we talk  
The more time we spend  
I know that I want you  
'Till you the one next to me

Girl, on this road that I ride  
All lights and signs all point to you  
Guess I shouldn't find the truth  
But I'm trying

It's my work, girl, I swear I'm trying  
Be your faithful heart and I can't deny it  
Wish you were my only one and I'm not lying, yeah (I'm  
not lying)

'Cause every girl's a hint  
Just to pass the time when  
You're not around  
You're still on my mind  
Thought I settled down  
Sometimes it's frightening

I don't wanna hurt you girl  
I don't wanna make you cry  
I don't wanna play you girl  
I just wanna love ya  
I don't wanna break your heart  
I don't wanna change who you are  
I don't wanna stress you out  
I just wanna love ya

Girl, I hope that I don't make you hate me  
Drive you to leave  
Soon, I'll be you the man that you want me to (You want  
me to)  
And I know you are one of a kind  
More than a dime  
I'm not here to waste your time, noo

Girl, I'm trying to give you all of me  
Girl, it ain't easy  
I wanna switch my style up girl, believe me

I should do anything you can to please me

I'm not lying

I know it's not the way I'm supposed to be livin'

One shorty, one day, one night, the next one

It's down, no contest, you're the best one

I don't wanna hurt you girl

I don't wanna make you cry

I don't wanna play you girl

I just wanna love ya

I don't wanna break your heart

I don't wanna change who you are

I don't wanna stress you out

I just wanna love ya

I just wanna love ya

I'm human, I make mistakes

But I promise I'm worth the wait

My attentions for you were great to love you

Baby, it hurts me inside to see that I'm the reason why

You ever stop smiling

I can make it right

I just wanna love you

I don't wanna hurt you girl

I don't wanna make you cry

I don't wanna play you girl

I just wanna love ya

I don't wanna break your heart

I don't wanna change who you are

I don't wanna stress you out

I just wanna love ya

I don't wanna hurt you girl

I don't wanna make you cry

I don't wanna play you girl

I just wanna love ya

I don't wanna break your heart

I don't wanna change who you are

I don't wanna stress you out

I just wanna love ya

I don't wanna hurt you girl

I swear...
